Well, METAL CHAOS is already out and features 36 pages of HAWAII, JAG PANZER, WITCHKILLER, LOUDNESS, SLAYER, NORTHWEST METAL, etc. If you would like to obtain one, just send me \$1.75. I know I should be sending you one free, but I'll be losing money.

I'm glad to know that you're able to contribute some stuff. Just send anything you have (articles, interviews, bios, news, reviews of gigs or LPs, etc.). Just remember to try and send some photos of the bands that you're writing about as it would make the article look good.

'Till then, WRITE SOON!!!

Also enclosed are the three issues that you ordered. Tell me what you think of it, O.K. Please show it to your local record store and ask them if they would like to carry it. If they would like to, tell them to call or write me for special rates.

Well, you said that you sent some articles, but in your letter, I haven't recieved any. Are you sure you sent them? For your METALLICA/ANTHRAX review, could you send some shots?

'Till then, WRITE SOON!!!

Spread The Word,

Unit 101

P.S.-When you record me tapes, please try not to record anything at the end of a tape.

P.S.S.-As you might already know, I have another address in which you could use to send me stuff. It doesn't matter which one you use because I'll get your mail anyhow.

I'll use the VICE and HIGHLIGHT bios, but I really don't know about the EXCITER/ANTHRAX gig review. The reason for this is because I already have one for the second issue. I hope you understand. When you send more stuff, please remember that it would be better if you could send the bands bio, some photos, their demo (if I don't have it), an interview, and their logo. Your help will be greatly appreciated.

By the way, do you have any photos of HIGHLIGHT? If so, could you please send me them?

'Till then, WRITE SOON!!!
