Jay -

I'm extremely sorry I didn't write back sooner, but things have BEEN hellishly chaotic around here lately. Enclosed please find the most recent live tape of THE GODS EXODUS - they signed their contract with Torrid Records (a division of Important) on the 21st and the guy in charge of the label is flying out here the second week in April to meet the band. Let me tell you Jay, this album is going to be THE release of '84!!! EXODUS have one of the best dual guitar attacks in Metal with Rick and Gary; please let me know what you think of this tape! At the end I put on the demo by a Sunnyvale band called HAVOC - their pretty good (for some reason they remind me of SAVATAGE) and have supported METALLICA and RIOT in the past. I hope to have some MEGADETH on tape to send around very soon (a demo); the live tape on my list is absolute shit as far as sound quality goes and isn't even worth having.

The gig situation is going strong around these parts. In past weeks we've had SLAYER (!) on the 17th, TED "whimp" NUGENT & MSG on the 16th-18th, and MSG/ROUGH CUTT on the 22nd. Upcoming we have MALICE this Friday & Saturday (supporting JOE PERRY), ALCATRAZZ & ANVIL CHORUS on April 13th, MEGADETH on the 15th, 16th, & 18th, SAXON & ACCEPT on the 17th & 18th, MOTLEY SPEW on the 26th, and SCORPIONS on the 28th & 29th. I'm afraid the MEGADETH show on the 18th will be empty because everyone (including Me!) are hitting up both ACCEPT shows.

Well Jay, I have to keep this short because I'm on my way to work. Enjoy the EXODUS (I'm sure you will) - they're my favorite band and good friends. Take it easy and I hope to hear from you soon (not like

me!)). RAGE 'TIL DETH!

IMPALE YOURSELF!!!

Brian

P.S. I'm very interested in the best sound quality ANTHRAX live tape you have, as well as any speed demon demos not on my list and that METALLICA in Boston tape you have. Let me know what you want in return. Thanks!
