Hallo JAY

Thanks For the 4 tapes, I loved most of them (I had already
on of the Metal church recordings, but that doesn't matter)
About Vice, you told me they going to make a second demo which
is for sale together with the first one. So I wait for a review till
the second one is out, let me know how European people can order the
demo's!!!! (send \$ dollar to ---)

Perhaps I sound silly, but I don't need new tapes from your list,
I have most, and I'm only interested in recordings longer than 15 minutes
Let me know when you have new recordings (so will I!! update list ready in 3 weeks)
and send the new Vice, + THANK
STEFAN

Hallo JAY.

THANKS very much for the tapes
They are all great. There is a
misunderstanding! I did not mean
that you had to tape each recording
on a different tape. What I meant
was that I would like that a recording
is ~~on ones~~ complete on one side of a tape
So you can tape all recordings on one tape
But so that (for instance) 2 recordings complete
on side A and 2 other complete on side B
Of course it doesn't matter that you send
one tape for one recording, ~~but it's looks~~
~~So~~ Yes, you can buy tapes from
my list. I don't know the exact
rate of the dollar, but let's say 4 dollar.
For a C-60 and 6 dollars for 90 minutes
of music. Prices include tape (TDK-D),
p2p, without the tape box, send air mail
