HI THERE! JAY

Thanks for the tapes and the letter. Unfortunately the MEGA DEATH tape had a fucking bad sound quality so I couldn't give them a fair judgement but I think they're a killer band, no make that KILLER! The Mechanix song sounded a lot heavier than METALLICA's version. I have reserved the new photos with VICE which was fuckin great but unfortunately they were a little late because I had already left the may for printing. It should be out when I receive the next letter from you. Besides that the new photos was great but no one of them were with the whole lineup. I send you the mag for free. I always send one mag for free to the bands I write about but if you know anybody that wants a copy then tell him to send \$3 to me, okay. I'm really looking forward to reserve the first POWERTHRASH mag when it comes around December/January.

I think I got all your update lists so far, I'm really looking forward to receive the new VICE demo.
